

Transformation

Do not let weak business acumen increase project risk and slow your transformation.

Participant Objectives (Workshops):

- Reduce silo thinking.
- Develop a cross-functional business acumen mindset.
- Learn actionable business acumen knowledge, insight, communication skills, and empathy.

H5 Consulting Services

- **Learning solutions for IT and non-IT professionals.**
- **Organizational Development and Change Management** (Partnering and Innovation, Risk Management, Center of Excellence for Collaboration and Innovation, Knowledge Base)
- **Business Acumen for IT Professionals.** (Increase business knowledge, empathy, and skills for cross-functional collaboration. Learn to understand and communicate the business value of technology.)
- **Research and Writing.** (Articles, videos and microlearning, speeches, eLearning, employee communications).
- **Business Acumen for Salespeople.** (Salespeople become business savvy and can communicate value from the perspective of customers (business leaders and stakeholders.)
- **Large audience collaborative learning events.** (Ideation, design, and implementation.)

Make cross-functional collaboration a strong capability and mindset.
